Unit 3: Anatomy and Physiology for Health and Social Care
Learning aim B: The structure, function, and disorders of body systems

Curriculum Manifesto/Principles:

- To secure student investment in their future career choices within the HSC sector
- To provide opportunities to explore the specialist skills and qualities needed to promote excellence in standards of care for a range of people
- To create time to apply subject specific knowledge, skills and concepts to authentic HSC contexts
- To promote an ethical approach when dealing with conflict and dilemmas within HSC
- To ensure that all students have a thorough grounding in the latest industry requirements and work-ready skills
- To support the holistic development of practical, interpersonal and thinking skills required to be successful in employment and higher education
- To prepare students for the challenges of the workplace by developing empathy and compassion whilst encouraging a determined, 'can-do' approach
