

## Principal's Update

18 March 2022

Dear Parent / Carer

It has been great to see all the activities that students and staff have been involved in this week to raise money for Red Nose Day. It always impresses me with how our Academy pull together to support the local community and national causes on weeks like this. We have had bake sales, community litter picks, carpool karaoke and a 24-hour exercise challenge (with several staff exercising throughout the night) amongst many other events. Now that COVID restrictions have been removed we are keen to keep building on these events and would like involve the students as much as possible in supporting our community. If there are any local causes or events that you think the pupils could support with, we would love to hear from you to see if there is a way we can help.

I hope you have an enjoyable weekend – it looks as though spring may have finally arrived!

Mr Wood  
Principal

## Red Nose Day

# Department Information

## Space Club

Space Club (Y7-10) are planning on moving to the Moon! They meet every Thursday week B in 5G10 to plan their mission. So far stage 1 is complete - they have successfully designed their rovers to explore the surface of the Moon and collect samples to gain information about the conditions and resources there. Now they just need to figure out how to get there...

## Social Sciences Careers Event

20 industry professionals attended the Academy to speak to Post 16 students from MLT and Wath Academy. Professionals from a variety of linked sectors attended from a police officer, mental health nurses, an emergency medical dispatcher, a radiographer, a solicitor, a clinical psychologist, midwives and other specialist nurses and support workers. They spoke to all of our Y12 Social Sciences students about routes into the different professions, their roles and responsibilities and the benefits and drawbacks of the job. Students found the sessions extremely helpful with regard to gaining more information about alternative routes into the different professions and what it is like working in the different industry sectors. The Social Sciences department would like to thank all professionals that attended as it has been an invaluable experience for Year 12 students.

## Student Shout Outs

Student	Subject	Reason/Key Driver
Tilly M	Computer Science	Aspiration
Charlie T	Computer Science	Community
Evie W	D&T	Community
Darcey E	D&T	Resilience
Amy B	Engineering	Resilience
