Half Term 6: 5 <sup>th</sup> June – 21 <sup>st</sup> July (7 weeks)						<b>Curriculum intent</b>  Our curriculum is built on the understanding that students will be <b>inspired</b> to work in a sector which has a significant impact on the health and well-being of service users and that their <b>ambition</b> to promote <b>excellence</b> in <b>standards of care</b> will be fostered through <b>exploring</b> and <b>experiencing</b> roles within the health and social care sector.  We believe that when students embark on their Health and Social Care studies, their <b>prior knowledge</b> will be informed by core disciplines such as Science, English, Physical Education and Religious Education. Therefore, our curriculum creates <b>time</b> for students to <b>apply</b> subject specific <b>knowledge, skills and concepts</b> to <b>different</b> Health and Social Care <b>contexts</b> . It is essential that students understand the <b>latest industry requirements</b> and have the opportunity to <b>demonstrate work-ready skills</b> . Students will <b>develop holistically</b> to ensure they are <b>adequately equipped</b> with <b>practical, interpersonal</b> and <b>thinking skills</b> leading to their future success in employment and education.  By the time students complete their Health and Social Care qualification, their <b>ability to research, extend their writing</b> and <b>meet deadlines</b> will give them the experience needed for higher education. <b>Empathy and compassion</b> will be developed along with a <b>determination</b> to make a difference.						
Week 34	Week 35	Week 36	Week 37	Week 38	Week 39							
Unit 8: Promoting Public Health (assignment 2) – Type first submission	Close the gap on any key areas for learning aim C and D		Unit 8: Promoting Public Health (assignment 2) – Type resubmission.
