

Statement for MLT Website

Special Educational Needs and Disabilities (SEND):

Maltby Learning Trust is committed to providing an appropriate and high quality education for all students attending our Academies. All students, including those identified as having special educational needs, have a common entitlement to a broad and balanced academic and social curriculum, which is accessible to them, and to be fully included in all aspects of Academy life.

All students are valued equally. We strive to eliminate prejudice and discrimination and to develop an environment where people can flourish and feel safe. All students will be supported and challenged to achieve better than expected progress, through high level support. This does not mean that we treat all learners in the same way, but rather, that we respond to learners in ways which take account of their varied life experiences and needs.

Educational inclusion is about equal opportunities for all learners, whatever their age, gender, ethnicity, impairment, attainment and background. We pay particular attention to the provision for and the achievement of different groups of learners:

- Girls and boys
- Minority ethnic and faith groups, travellers, asylum seekers and refugees
- Learners who need support to learn English as an additional language (EAL)
- Learners with special educational needs
- Learners who are disabled
- Those who are looked after by the LA
- Others such as those who are sick; those who are young carers; those in families under stress; those on free meals.

Special educational needs and disabilities provision is educational or training provision that is additional to or different from that made generally for others of the same age. This means provision that goes beyond the differentiated approaches and learning arrangements normally provided as part of high quality, personalised teaching. It may take the form of additional support from within the setting or require the involvement of specialist staff or support services.

Maltby Learning Trust has arrangements in place to identify the need for and secure such provision, whether through expertise and resources available within the Trust or by drawing on support from outside services. How this works in practice, is outlined in the individual academies' SEND policies (accessible via the links below.)

Special Educational Needs and Disability (SEND) Policy

Approved by: MLT Board
Next Review Due: December 2018

1. RATIONALE

Maltby Learning Trust is committed to providing an appropriate and high quality education for all students attending one of the Academies. All students, including those identified as having special educational needs, have a common entitlement to a broad and balanced academic and social curriculum, which is accessible to them, and to be fully included in all aspects of Academy life.

All students are valued equally. The Trust strives to eliminate prejudice and discrimination and to develop an environment where people can flourish and feel safe. All students will be supported and challenged to achieve better than expected progress, through high level support. This does not mean that we treat all learners in the same way, but rather, that we respond to learners in ways which take account of their varied life experiences and needs.

Educational inclusion is about equal opportunities for all learners, whatever their age, gender, ethnicity, impairment, attainment and background. We pay particular attention to the provision for and the achievement of different groups of learners:

- Girls and boys
- Minority ethnic and faith groups, travellers, asylum seekers and refugees
- Learners who need support to learn English as an additional language (EAL)
- Learners with special educational needs
- Learners who are disabled
- Those who are looked after by the LA
- Others such as those who are sick; those who are young carers; those in families under stress; those on free meals.

Special educational needs and disabilities provision is educational or training provision that is additional to or different from that made generally for others of the same age. This means provision that goes beyond the differentiated approaches and learning arrangements normally provided as part of high quality, personalised teaching. It may take the form of additional support from within the setting or require the involvement of specialist staff or support services.

Maltby Learning Trust has arrangements in place to identify the need for and secure such provision, whether through expertise and resources available within the Trust or by drawing on support from outside services. How this works in practice, at Maltby Academy, is outlined in this policy.

The policy describes the way we meet the needs of students who experience barriers to their learning, which may relate to sensory or physical impairment, disability, learning difficulties or emotional or social development, or may relate to factors in their environment, including the learning environment they experience in the Academy.

2. ROLES AND RESPONSIBILITIES

The SENDCO, with the Principal and local governing body, determine the strategic development of SEND policy and provision.

The key responsibilities of the SENDCO include:

- Overseeing the day-to-day operation of the Academy's SEND policy;
- Co-ordinating of specific provision for children with SEND, including those who have EHC plans;
- Liaising with the relevant designated teacher where a looked after student has SEND;
- Advising on graduated approach to providing SEND Support;
- Advising on the deployment of the Academy's delegated budget and other resources to meet students' needs effectively;
- Liaising with parents/carers of children with SEND;
- Liaising with early years' providers, other schools, educational psychologists, health and social care professionals, and independent or voluntary bodies;

- Being a key point of contact with external agencies, especially the LA and LA support services;
- Liaising with potential next providers of education to ensure a young person and their parents/carers are informed about options and a smooth transition is planned;
- Working with the Principal and Academy governors to ensure that the Academy meets its responsibilities under the Equality Act (2010) with regard to reasonable adjustments and access arrangements.

Specialist Teaching Assistants (TAs), within the SEND department play pivotal roles facilitating and coordinating the whole Academy approach to SEND. They work in partnership with the broader staff body, in their various roles as Subject teachers, form tutors and Managers to ensure the effective and efficient implementation of the Academy SEND policy.

3. STAFF WITH SPECIFIC SEND RESPONSIBILITIES

SENDCO SEND Governor	Laura Critchley Jim Fletcher
Learning Support Teams:	
English Lead Teaching Assistant Teaching Assistant Teaching Assistant	April Parker Christine Keens Beth Armett
Maths Lead Teaching Assistant Teaching Assistant Teaching Assistant	Janette Bray Dawn Weldon Gabriel Lacelles

REACH Teaching Assistant Teaching Assistant	Jamie Guy David Corbin
Support Centre Support Centre Manager	Jayne Fieldhouse
Admin SEND/Inclusion Administration Assistant	Claire Quarmby
Welfare Complex Case Officer/Medical Mast Strategic Leader/ Designated Safeguarding and Wellbeing Officer	Donnagh Frith Sara Graham

4. IDENTIFICATION, ASSESSMENT AND RECORDING OF SEND STUDENTS

The Academy aims to ensure that the identification and assessment of students with special educational needs takes place as early as possible and as quickly as is consistent with thoroughness.

Maltby Academy keeps a register of students with special educational needs in accordance with the 2014 SEND Code of Practice (6.6 P.85) and maintain all records relevant to decisions made in relation to any student's registration.

To ensure early and accurate identification of special needs, the Academy has a range of procedures in place to cover the following:

- Registering concerns about students
- Collection of evidence from a variety of relevant sources
- Using relevant assessments

The identification of SEND is built into the overall approach to monitoring the progress and development of all students.

The Academy will assess each student's current skills and levels of attainment on entry.

Class and subject teachers, supported by the senior leadership team, should make regular assessments of progress for all students. Where students are falling behind or making inadequate progress given their age and starting point, they will be given extra support. Students on the SEND register who are identified as not making better than expected progress will receive intervention in this subject.

At this early stage, teachers may suspect that a pupil has SEND. While informally gathering evidence (including the views of the student and their parents,) the Academy should not delay putting general teaching support in place where required. The student's response to such support can help identify their particular needs.

Better than expected progress can include progress which:

- Is similar to that of peers starting from the same baseline;
- Matches or betters the child's previous rate of progress;
- Closes the attainment gap between the child and their peers;
- Prevents the attainment gap growing wider.

Where students continue to make inadequate progress, despite high-quality teaching targeted at their areas of weakness, the class teacher, working with the SENDCO, should assess whether the child has a significant learning difficulty. Where this is the case, there should be agreement about the SEND support that is required to support the child.

REGISTERING A CONCERN

Prior to primary transitions, the SENDCO will liaise with primary staff and the assigned SENDCO from the feeder schools and discuss and note the concerns of Year 5 and 6 class teachers, SENDCO and the Principals about students with special educational needs.

Any concerns that emerge after the primary transition will be raised through the following Academy procedures:

- **Subject teacher Referral:** Subject teachers should work with specialist support to identify where a student may be struggling with the demands of a course due to their SEND. Students who fall behind at school, or who are studying below Level 2, may have SEND, but should not be automatically identified as such just because they have lower attainment levels than their peers. Teachers must report concerns to the SEND team.

- **SEND team network:** The Special Needs department will pass on concerns about individuals to the SENDCO through discussions or during designated department time.
- **Inclusion Team referral:** Special Needs concerns from House Managers and other staff may be registered through the Inclusion Team weekly meeting. The most appropriate provision would be discussed and a plan of action of how best to support would be agreed upon. This may include a specialist pathway for the student.
- **Parental concerns:** Parents' concerns about their children's special needs may be passed on by them, either through reviews and meetings or by contacting the SENDCO directly.

SEND should not be regarded as sufficient explanation for low achievement, nor should there be an assumption that all children will progress at the same rate or that all children falling behind their peers have SEND.

5. SPECIALIST GRADUATED SEND PROVISION

For SEND students, we provide access to a broad and balanced curriculum that is differentiated to meet individual needs. Additional intervention and support is also provided. For students with significant learning difficulties, basic skills are taught, with aspects of literacy and numeracy to ensure a greater degree of learning independence. The approach is graduated (see Appendix.)

DIFFERENTIATION

Teachers are responsible and accountable for the progress and development of the students in their class, even where students access support from teaching assistants or specialist staff.

High quality teaching, differentiated for individual students, is the first step in responding to students who have or may have SEND. Additional intervention and support cannot compensate for a lack of good quality teaching.

Teachers should set high expectations for every student and aim to teach them the full curriculum, whatever their prior attainment. Teachers should use appropriate assessment to set targets which are deliberately ambitious.

Lessons should be planned to address potential areas of difficulty and to ensure that there are no barriers to every student achieving. In many cases, such planning will mean that these students will be able to study the full national curriculum.

Potential areas of difficulty should be identified and addressed at the outset of work.

SEND strategies and overviews are available on the shared area for all staff to access

TEACHING ASSISTANT SUPPORT

In addition to quality first teaching and a differentiated approach, students with SEND may also require extra attention and support for their learning needs. The main focus of this learning support from Teaching Assistants (TAs) will be in the mainstream classroom where these students will be taught alongside their peers. The general objectives of TAs' in-class support:

- Active involvement in lessons and proactive provision of support for students, including those with special needs, ensuring their safety and access to learning activities.
- Adjustment of activities according to student responses, to ensure differentiation and/or challenge.
- Monitoring of students' responses to learning activities and providing feedback to the teacher

- Providing feedback to students in relation to progress and achievements, under the guidance of the teacher.
- Showing knowledge of subject and criteria through use questioning/learning tasks to check understanding of tasks and to facilitate progress.
- Promoting a positive climate for learning and model good behaviour. Challenging behaviour and implementing Academy standards.
- Establishing constructive relationships with students and interacting with them according to their individual needs.
- Demonstrating a good knowledge of SEND barriers in lesson and targeting support appropriately to meet individual needs.
- Encouraging students to work independently with others and engage in learning.
- Extending learning through differentiated tasks, plenaries and checking progress before moving onto next tasks.

It is the SENDCO's responsibility to establish a framework of learning support across the curriculum. The allocation of TAs to classes will depend both on **student priorities** - to meet the requirements of students with statements and EHC plans and to meet the needs of other students on the Academy's SEND Support Log; and **subject priorities** - where priority will be given to the core subjects of English, Maths and Science and then to areas where students will require most help with reading, writing and conceptual understanding.

Lead TAs (with the support of the SENDCO) will co-ordinate the timetables and deployment of other TAs. Lead TAs will co-ordinate interventions and ensure a graduated approach is in place and SEND department documentation is complete. Lead TAs will attend department meetings and liaise closely with their specific department creating secure links between the SEND department and the subject area.

There will be circumstances when individuals or small groups of students may need to be withdrawn from their mainstream lesson to work with specialist staff to ensure better than expected progress is made - the class teacher will remain responsible for students within the group.

SUPPORT CENTRE PROVISION

There will be times when individual students may have some specific learning, physical, emotional, social or behavioural problem which prevents them, temporarily, from fully partaking in mainstream lessons. In these circumstances, their lessons can be delivered to them or they can access the work from the lesson in the Support Centre until, after successful recuperation and/or mentoring, the student can re-join their peers in lesson.

The objectives will always be integral to a subject department's scheme of work or be part of a strategy to overcome barriers to learning and may include:

- Approaching aspects of the curriculum in a different way
- Reinforcing appropriate classroom learning behaviour
- Giving extra information to basic concepts
- Working on ICT based programmes to support basic skills
- GCSE Coursework Support
- Providing academic and social support for students with emotional difficulties
- Providing a bespoke and personalised timetable for vulnerable/SEND students to support SEMH needs.
- Monitoring students via daily report
- Feeding-back and liaising with parents regarding provision and students

When students have had prolonged periods of absence for emotional or medical reasons, there may be a need to reintegrate them gradually into mainstream. This graduated reintegration will be managed and monitored by the Support Centre manager and a bespoke timetable.

SEND INTERVENTION BEYOND (WAVE 2-4)

A graduated response to intervention is in place to closely track, assess and monitor students and the progress they are making. SEND Intervention documents must be completed by Lead TAs and TAs and are quality assured each half term by the SENDCO and the LTA in charge of overseeing the intervention. Files are maintained centrally and are reviewed to assure interventions are impactful.

Students are identified for intervention by SENDCO/LTA/Subject teacher. Students not making better than expected progress (below 4 levels progress) in a specific subject or who have SEND and require additional support above Wave 1 provision.

Process:

- Students discussed with SENDCO at LTA meeting
- Appropriate plan/provision planned for student
- Discussions with KS Subject Specialist/Class Teacher/Subject Leader
- Letter sent to parents to inform them of the process
- Subject teacher/Leader informed
- Students informed of time and day to attend
- Intervention logged on Student Support Log
- Intervention tracker and planning document completed by TA
- Students attend intervention
- TA plan/record and monitor intervention- saved on central area for teachers to access: Staff only\SEN\SEN Intervention
- At the end of interventions parents should be informed via telephone or letter by the TA who ran the intervention to relay outcomes and further provision if needed.

Reviewing Interventions:

- Weekly discussions during LTA/SENDCO meeting
- Discussions with subject teachers to assess impact
- TAs observe impact via support in class
- Learning Cycle data
- Discussions with parents
- Discussions with the student

6. SEND CATEGORIES AND SUPPORT

To provide a robust and graduated response to SEND, once a potential special educational need is identified, the Academy will take action to put effective support in place.

These actions form part of a cycle through which earlier decisions and actions are revisited, refined and revised with the growing understanding of the students' needs and of what supports the student in making good progress and securing better than expected outcomes.

Students who are identified as having SEND are monitored via the SEND Register and Support Log. Intervention and provision is recorded on the SEND Support Log and is reviewed termly. Information from the SEND Support Log is also be available on Sims. All staff have access to SEND information via Sims and the shared area- SEND information is maintained by the SEND admin team and is kept up to date.

COGNITION AND LEARNING:

Specific Learning Difficulties: Dyslexia/ Dyscalculia/ Dyspraxia/ Moderate Learning Difficulties

Students with dyslexia/ dyslexic tendencies may need literacy support and handwriting may be an issue identified for specific intervention. Students will attend intervention sessions during tutor periods or after school with a TA. Students will have access to coloured overlays/paper/exercise books/reading rulers if needed or identified as having visual stress.

The SEND department may carry out a dyslexia screening test to pinpoint specific needs to tailor bespoke interventions to support students' needs. Other testing will be carried out to identify areas of need regarding reading comprehension, reading/writing speed, reading age and hand writing issues.

All teachers have access to Dyslexia/MLD/Literacy information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the SEND Support Log and individual needs will be logged on the Sims network for all staff to access. PPLD training sessions will go ahead for all staff to attend to improve knowledge of this need and for staff to access information regarding the cohort.

SUPPORTING LITERACY

Year 7 and Year 8 Students who are identified as having below average literacy levels in relation to their peers will access the 'Step-Up' Provision where a bespoke curriculum is delivered to rigorously support students' literacy needs. Students will have a differentiation plan outlining the provision to support individual needs around literacy and will detail resources used to support the individual students.

Students will have an opportunity to graduate out of 'Step-Up' in Y7 and Y8 if they are consistently working at a reading and writing level that is in line with their peers. At Key Stage 4, students who have not graduated will be supported through 'Study Plus' and will have additional support with literacy and numeracy. Students will also have support around option subjects to ensure progress is in line with their peers and progress made is better than expected.

From Year 9, students will be assessed for exam access arrangements to ensure they have the opportunity to achieve the best possible outcomes. Students may qualify for a reader/scribe and/or extra time for all examinations. The SEND department will ensure that access arrangements are in place and are in line with the JCQ regulations.

COMMUNICATION AND INTERACTION:

Speech, language and communication needs; Asperger's syndrome and Autism

All students with Autism (or Autistic traits) will be monitored by the key specialist in the Academy via Learning Cycle data, Teacher feedback, observations and meetings. Key stage 3 students will take part in the Autism group which lasts 6 weeks and is bespoke for the group of students who are taking part. Key staff will liaise closely with the Autism Communication Team termly and will refer for further advice or intervention if necessary.

Speech, language and communication needs: Students will be referred to the Speech and language service if there is a concern or support is needed. The Speech Language and Communication (SLC) team work closely with the Academy and will provide interventions and/or

strategies for students to improve their SLC need. TAs will support students and intervention to practise strategies may be arranged.

All teachers have access to speech, language and communication needs information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the SEND Support Log and individual needs will be logged on the Sims network for all staff to access. PPLD training sessions will go ahead for all staff to attend to improve knowledge of this need and for staff to access information regarding the cohort.

SOCIAL EMOTIONAL AND MENTAL HEALTH DIFFICULTIES (SEMH):

Social and emotional difficulties which may include becoming withdrawn or isolated, as well as displaying behaviour; ADD, ADHD or attachment disorder.

The Academy recognises and understands the importance of Social, Emotional and Mental Health needs and the impact SEMH has on academic achievement. Therefore, support is in place to meet the needs of children with SEMH through a committed Pastoral Support Team consisting of;

Student Tutors, House Managers, Assistant House Managers, Support Centre Provision, Climate for Learning Managers, Complex Case Officer, REACH provision, Mast, Designated Safeguarding and Wellbeing Officer and Green Pathway.

The Intervention Team is made up of members from each of the above sectors. The intervention team meet weekly to ensure students who require additional support or students who need over and above what the Academy procedures provide are discussed and an appropriate resource is put in place to support the student.

If necessary, students will access outside agency provision through referrals to; the Early Help Team, MAST, Family MAST, Rowan, Local Authority, Educational Psychologist, Swinton Lock.

REACH PROVISION:

Students with emotional, behavioural, mental health and social difficulties who find it difficult to conform to school policies and regulations consistently or need additional support around their emotional needs may be identified to join the REACH provision which;

- Provides students with the opportunity to build a positive and supportive relationship with key adults who are able to spend regular times to help stabilise students' emotions and build a rapport.
- Allows students to go to the REACH centre as a safe place if they need to leave lesson if they are unable to cope.
- Uses positive rewards-the REACH reward system and lesson monitor report provides students with opportunities to receive positive feedback and allows staff to monitor individuals' moods and assess whether behaviour is appropriate to go into lesson or remain in the REACH provision.
- Provides clear and predictable routines and allows for key staff to allocate TA support on a lesson by lesson basis depending on needs at the time.

All teachers have access to SEMH information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the SEND Support Log and individual needs will be logged on the Sims network for all staff to access. PPLD training sessions will go ahead for all staff to attend to improve knowledge of this need and for staff to access information regarding the cohort.

SENSORY AND/OR PHYSICAL:

Vision impairment, hearing impairment or multi-sensory impairment. Students whom have a disability which prevents or hinders them from making use of the facilities generally provided will have their needs met through arrangements put in place via the SENDCO, Occupational Therapist or Medical Officer.

The Academy will liaise with the Hearing/Visual/SLC impairment services for additional advice where necessary and will refer to services if needed. The impairment services will support students in lessons, offer strategies and will meet with parents throughout the year.

All teachers have access to Sensory or Physical information regarding characteristics and strategies to improve knowledge to support students in lesson. Students will be monitored via the SEND Support Log and individual needs will be logged on the Sims network for all staff to access. PPLD training sessions will go ahead for all staff to attend to improve knowledge of this need and for staff to access information regarding the cohort.

7. WORKING WITH OUTSIDE AGENCIES: INVOLVING SPECIALISTS

Maltby Academy seeks advice and help from agencies, and works in partnership with them to meet the special needs of students. Where a student continues to make little or no progress, despite well-founded support that is matched to the student's area of need; the SENDCO will consider involving specialists, including those from outside agencies.

The Academy may involve specialists at any point to advise them on early identification of SEND and effective support. The Academy will involve a specialist where a student continues to make little or no progress over a sustained period or where they continue to work at levels substantially below those expected of children of a similar age despite well-founded SEND support. The student's parents will be involved in any decision to involve specialists. The involvement of specialists and what was discussed or agreed should be recorded and shared with the parent and teaching staff supporting the child in the same way as other SEND support.

The SENDCO and class teacher, together with the specialists, will consider a range of well-founded and effective teaching approaches, appropriate equipment, strategies and interventions in order to support the child's progress.

THE EDUCATIONAL PSYCHOLOGIST

Educational psychologists are specialists in learning, behaviour and child development. They work directly with children and young people as well as providing expert advice to their parents and carers, and to other adults who teach and support them.

Within the Academy, the educational psychology service provides a wide range of services, including advice on teaching and learning, counselling, staff training, behaviour management and practical evidence-based interventions. They provide on-going advice about children and young people with EHC plans. They also make links with wider community services and psychological therapies (mental health) especially in relation to child protection, Child and Adolescent Mental Health Services, and managing challenging circumstances and crises such as suicide, death, bullying and harassment. The SENDCO will liaise with the Education Psychologist and direct time as need requires.

CHILD AND ADOLESCENT MENTAL HEALTH SERVICES (CAMHS)

CAMHS are mainly local services that provide mental health assessment and treatment services to children, young people and their families. They also provide advice, consultation and support to other individuals and agencies involved in children's care. A range of professionals may work in CAMHS including therapists, nurses, psychiatrists, psychotherapists, psychologists and social workers.

OCCUPATIONAL THERAPISTS

Occupational therapists help children and young people achieve or maintain their maximum level of independence and develop the practical life skills needed to participate to their full potential at home and in education.

PHYSIOTHERAPISTS

Physiotherapists are concerned with a child or young person's balance, movement and coordination. In schools, the physiotherapist will advise the teacher and classroom assistant on activities which will be helpful, such as exercise routines and games which could be done during PE lessons.

CAREERS ADVICE

The Careers Advisor is central to facilitating a successful transition from education to employment for young people with more complex special needs. The advisor can provide on-the-job training for young people on Supported Internships, Traineeships or Apprenticeships. The advisor will also provide support to employers, increasing their confidence in working with these young people and helping them to understand the business case for employing a diverse workforce. SEND students will be offered careers interviews from Y10- SEND students with EHC Plans or Statements will have careers advice from Y9.

SOCIAL SERVICES

The Academy will co-operate at all times with Social Services when a student is either 'in need' or 'at risk' of significant harm.

SPECIAL EDUCATIONAL UNITS

Liaison with special educational units will sometimes be necessary for advice, resources, or possible reintegration into mainstream for some students who have needed to spend time at another establishment.

OTHER SEND AGENCIES

- Speech and language therapists
- Hearing Impaired Service
- ACT
- Occupational therapy

- MAST
- Early Help Assessment Team

-

GENERAL PROCEDURES

In all cases involving the above support services, the SENDCO will aim to observe the following procedures:

- Decisions will be reached by the SENDCO in collaboration with the Inclusion Team, Support Centre Managers and relevant House Managers.
- Parental permission will be sought and a formal request for specialist support will be made.
- Arrangements will be made to collect relevant information about the nature and extent of the student's problems and pass it on to the agency.
- Arrangements will be made for external specialists to observe/assess/meet with students, parents and teachers.
- Educational plans and provision will be adapted to take into account the specialist advice and support offered.

8. WORKING IN PARTNERSHIP WITH PARENTS AND CARERS

We aim to ensure that the wishes, feelings and knowledge of parents are taken into account when making assessments and planning actions to meet their children's special needs.

We encourage parents to recognise that they have responsibilities towards their children, and that the most effective provision will be made when they work in partnership with the Academy and other agencies to meet their children's special needs.

Parents of students with special needs will be given the same general information and chances to share in their children's progress as all parents. In addition to this, parents of students with special needs may require and expect information in the following:

- The Academy SEND report via the website
- The SEND support available from both the Academy and the LA
- The SEND assessment and decision making procedures
- Other services provided by the LA for Children in Need
- Local and national voluntary organisations which may provide advice and counselling
- The work of the parent partnership services

The Academy values highly a partnership with parents in obtaining the most effective provision for students with special needs. This partnership includes:

- The Academy explaining to parents its concerns about their children's special needs and strategies that may be used to meet their needs
- Parents working with the Academy in supporting special programmes and encouraging their children to take an effective part in them
- The Academy responding quickly to parental concerns about student's special educational needs
- Parents responding quickly to the Academy's request for their involvement in meeting their children's special needs
- The Academy and parents having joint meetings, to set clear goals, discuss the activities and support that will help achieve them, review progress and identify the responsibilities of the parent, the pupil and the school. It should provide an opportunity for the parent to share their concerns and, together with the teacher, agree their aspirations for the child.

The views of the child will be included in this planning. This could be through involving the child in all or part of the meeting, or gathering their views as part of the preparation for the meeting. Following the meeting the SENDCO will need to inform all the appropriate school staff of the outcomes and agreed targets, as well as updating the student's record as appropriate.

PARENT CHARTER

The SEND Department recognises the importance of liaising with parents and appreciates any feedback from parents. From September 2016 the Academy will be working towards achieving Charter Gold status and will be the first secondary school nationally to achieve this status.

The Rotherham Charter celebrates genuine partnership working with parents, carers, children and young people, adults and families.

The Charter is about building trust with parents and children and starts with a promise to commit to four Charter principles: Welcome and Care; Value and include; Communicate; and Work in Partnership.

9. USE OF DATA AND RECORD KEEPING

Provision made for students with SEND is accurately recorded and kept up to date. This will form part of regular discussions with parents about the child's progress, expected outcomes from the support and planned next steps. The SEND Support Log displays accurate information to evidence the SEND support that has been provided over the student's time in the Academy, as well as its impact.

The provision that the Academy makes which is additional to and different from that which is offered through the Academy's differentiated curriculum is recorded on the SEND Support Log and is used to clearly track and monitor a graduated approach. Recording information on Sims enables the SENDCO to maintain an overview of the collective programmes of individual children and young people and provides a basis for monitoring the levels of intervention and assessing the impact on progress.

The SENDCO will track and monitor SEND students' progress and data using class score cards, Learning Cycle data and matrices. Learning cycle data will be tracked to ensure students who are not making better than expected progress (4 levels progress) are identified and interventions to support students make progress can be put in place.

10. IN SERVICE TRAINING

The Academy aims to encourage all staff (teaching and non teaching) through both external and internal in-service training, to develop and reflect upon their understanding of special educational needs and their expertise in providing for students with such needs, in accordance with Academy development plans.

Teaching staff are encouraged to;

- Develop their understanding of special needs and the educational, social and personal implications for a student having special needs.
- Develop their teaching expertise in providing for students having special needs.
- Develop a secure knowledge of differentiation to provide high quality teaching for all students.
- Keep up with any new initiatives, procedures and legislation in the area of SEND.

As the Academy continues to develop the use of Teaching Assistants, we are also aware of the need for them to benefit from the in-service training and for teaching staff to be trained in the best ways of utilising teaching assistants as an important resource to the Academy.

ACADEMY BASED TRAINING

SID Sessions/Teaching and Learning sessions

- The Role of the SENDCO
- The Use of other Adults
- Differentiation
- SEMH characteristics, strategies to support, cohort overview
- Autism characteristics, strategies to support, cohort overview
- Dyslexia/Dyslexic tendencies characteristics, strategies to support, cohort overview
- MLD characteristics, strategies to support, cohort overview
- LAC and Attachment disorder characteristics, strategies to support, cohort overview
- Visual Impairment characteristics, strategies to support, cohort overview

INSET - SEND Code of Practice

Lead TAs to attend Teaching and Learning training

All Teaching Assistants to attend and participate in AWTL, PPLD and follow the MLT training plan

EXTERNAL TRAINING

Courses aimed at the SEND department to develop policies and practice, and to examine new legislation and guidance in this area

External agencies provide training for teaching staff in school during INSET time.

Courses for Teaching Assistants to develop their general understanding of SEND issues and to be trained in support strategies.

APPENDIX: MALTBY ACADEMY SEND SINGLE CATEGORY SUPPORT – GRADUATED APPROACH

WAVE 1

Before identifying a child as needing SEND support, the class teacher, working with the SENDCO, should establish a clear analysis of the student's needs. This should draw on the teacher's assessment and experience of the student, as well as information from the school's core approach to student progress, attainment, and behaviour.

WAVE 2

It should also draw on the individual's development in comparison to their peers, the views and experience of parents, the child's own views and, if relevant, advice from external support services. Schools should take seriously any concerns raised by a parent. These should be recorded and compared to the setting's own assessment and information on how a child is developing. The main areas of need that characterise students with SEND are set out at this assessment should be regularly reviewed. This will help to ensure that support is matched to need, and that a clear picture of the interventions put in place and their effect is developed. For some types of SEND, the way in which a student responds to an intervention can be the most reliable method of developing a more accurate picture of need.

Plan:

Where it is decided to provide a student with SEND Support, the parents **must** be notified. The teacher and the SENDCO should agree in consultation with the parent and the student, the interventions and support to be put in place, as well as the expected impact on progress, development or behaviour, along with a clear date for review.

All teachers and support staff who work with the child should be made aware of their needs, the support provided and any teaching strategies or approaches that are required. This should also be recorded on the school's information system.

The support and intervention provided should be based on reliable evidence of effectiveness and be provided by staff with sufficient skills and knowledge.

Do:

The class or subject teacher should remain responsible for working with the child on a daily basis. Where the interventions involve group or one-to-one teaching away from the main class or subject teacher, they should still retain responsibility for the student, working closely with any teaching assistants or specialist staff involved, to plan and assess the impact of interventions. The SENDCO should support the class or subject teacher in the further assessment of the child's particular strengths and weaknesses, in problem solving and advising on the effective implementation of the support.

The support and intervention provided should be based on reliable evidence of effectiveness and be provided by staff with sufficient skills and knowledge.

Review:

The effectiveness of the support and the impact on the child's progress should be reviewed in line with the agreed date.

The impact of the support provided, along with the views of the student and their parents, should feed back into the analysis of the student's needs. The class or subject teacher, working with the SENDCO, should revise the targets and strategies.

WAVE 3

In addition to Wave 1 and 2 in some cases, outside professionals from health or social services may already be involved with the child. These professionals should liaise with the school to help inform the assessments. Where these professionals are not already working with school staff, the SENDCO should contact them if the parents agree.

WAVE 4

Education, Health Care plan requested from Local Authority to provide additional support and funding. Students at Wave 4 will receive bespoke curriculum support and will be allocated support if and where necessary. Provision will be reviewed annually.
