

Maltby Academy SEND Information Report

Date: June 2021 **Review Date:** March 2022

Covid-19 – Within periods of Covid-19 restriction, our aim is to continue to ensure that students with SEND needs can continue to access education in a safe manner. This means that pragmatic and proportionate steps will be taken to risk assess and manage any identified risk to the student themselves or staff, presented by administering the care needed to meet need and steps taken to mitigate those risks. This report has been updated to provide a framework for this process to operate under.

We will offer places to all students with EHC plans and SEND need whose risk assessment determines that is the right course of action. Risk assessments will be kept up-to-date to reflect any changes in circumstances, including changes to coronavirus alert levels, which may influence a return to face to face teaching or otherwise. If risk assessment shows that a student's needs cannot be met within the academy without a high risk to either staff or themselves, the Principal will decide whether they should be educated remotely with appropriate adjustments.

The kinds of SEND that are provided for

The Academy, in line with the SEN Code of Practice, currently provides additional and/or different provision, through an SEND Department named Bridge, for a range of needs, including:

- Communication and interaction, for example, autistic spectrum disorder, Asperger's Syndrome, speech and language difficulties
- Cognition and learning, for example, dyslexia, dyspraxia,
- Social, emotional and mental health difficulties, for example, attention deficit hyperactivity disorder (ADHD),
- Sensory and/or physical needs, for example, visual impairments, hearing impairments, processing difficulties, epilepsy
- Moderate/severe/profound and multiple learning difficulties

Covid-19 - During periods of Covid-19 restriction, additional barriers may be faced by children with specific SEND needs. The placing of restrictions on access to school does not change the Trust's statutory duty to provide an equal access to education for children with SEND needs to that being provided for their peers. However, careful planning must take place to ensure that this takes place in a manner which protects the wellbeing of the student and members of staff. For these students it is important that the academies work closely with parents to formulate a package of support that either allows the student to directly access the academy or be provided with appropriate high-quality remote learning opportunities.

Covid-19 - Where a student's needs, be they behavioural or medical, mean that during a time of Covid-19 restriction their needs present a high level of risk to staff or themselves, the Academy Principal, in consultation with parents and the SENDCo, will decide whether they are taught within the academy or through remote learning.

Identifying students with SEND and assessing their needs

We will assess each student's current skills and levels of attainment on entry, which will build on previous settings and Key Stages, where appropriate. Class teachers will make regular assessments of progress for all students and identify those whose progress:

- Is significantly slower than that of their peers starting from the same baseline
- Fails to match or better the student's previous rate of progress
- Fails to close the attainment gap between the student and their peers
- Widens the attainment gap

This may include progress in areas other than attainment, for example, social needs.

Slow progress and low attainment will not automatically mean a student is recorded as having SEND.

The SENDCo should be made aware of any student with Special Education Needs or disability by the student's parents or class teachers and will help to identify need and investigate appropriate levels of support using a graduated approach to provision, utilising resources available.

Where a student continues to make inadequate progress, despite high quality teaching targeted at their areas of need, the class teacher, working with the SENDCo and Inclusion team may assess if the student has a significant learning difficulty. Where required a graduated response is implemented and further intervention is planned, both from within the Academy and through external agency assessments and interventions.

Concerns may also be expressed by a support teacher or another associate professional within the Academy. Parents may have noticed something about their child's behaviour, development or performance that has not been apparent in school. Other external professionals such as a Doctor, Health professional or Social Worker may also raise concerns. School will respond to concerns and work in collaboration with agencies to assess a graduated response that is appropriate.

Class teachers and pastoral staff can refer to the SEND department using the SEND referral form. Referrals may also be triaged through the Vulnerable Learner meetings for further action from the SEND department. Parents are also encouraged to share their concerns with the Special Educational Needs Department.

When deciding whether special educational provision is required, we will start with the desired outcomes, including the expected progress and attainment, and the views and the wishes of the student and their parents. We will use this to determine the support that is needed and whether we can provide it by adapting our core offer, or whether something different or additional is needed.

Covid-19 – During a period of Covid-19 restriction, the identification and assessment of students with special needs may need to take place remotely through phone or video conference contact. Where on-site assessments are needed these should be carried out whilst maintaining social distancing. All planned measures must also have specific reference to any adjustment which will be required during a time of Covid-19 restriction and this should be referenced in training and risk assessment/planning processes. The plans should also consider the measures necessary to ensure the wellbeing of staff caring for the student is safeguarded at all times including procedural and specific PPE requirements (see Supporting Pupils with Medical Needs Policy).

Consulting and involving students and parents

We will have an early discussion with the student and their parents when identifying whether they need special educational provision. These conversations will make sure that:

- Everyone develops a good understanding of the student's areas of strengths and difficulties
- We take into account the parents' concerns
- Everyone understands the agreed outcomes sought for the student
- Everyone is clear on what the next steps are

We will formally notify parents when it is decided that a pupil will receive SEND support and the Individual Education Plan (IEP) and/or Care Plan will be agreed, and subsequently reviewed, alongside the student and their family and then sent out for parents' information.

Students with an EHCP will also receive an EHCSP following consultation, agreement and review meetings with student, their family and all relevant professional involved.

Covid-19 – To ensure that appropriate and rigorous planning and risk assessment has taken place to protect students and staff. This could be through the provision of Personal Protective Equipment (PPE) or through routines and timings being altered to minimise risks.

Covid-19 - All EHCPs, IEPs and support plans should be reviewed in periods of Covid-19 restriction and a risk assessment process undertaken to assess how a student's needs can be met.

As plans are reviewed, the need for, and availability of, staff with specialist training should be considered. Some staff who have vulnerabilities during times of Covid-19 restriction may not be in school or it may be considered too great a risk for them to carry out a particular procedure. Retraining needs and timelines should be built into the planning process.

Objectives of working in partnership with parents:

- To ensure that the Academy takes into account the wishes, feelings and knowledge of parents when making assessments and planning actions to meet their children's special needs.
- To encourage parents to recognise that they have responsibilities towards their children, and that the most effective provision will be made when they work in partnership with the Academy and other agencies to meet their children's special needs.

Parents of students with special needs will be given the same general information and chances to share in their children's progress as all parents. In addition to this, parents of students with special needs may require and expect information in the following:

- The Academy SEND policy
- The SEND support available from both the Academy and the LA
- The SEND assessment and decision making procedures
- Local and national voluntary organisations which may provide advice and counseling
- The work of the parent partnership services

The Academy values a partnership with parents in obtaining the most effective provision for students with special needs. This partnership includes:

- The Academy explaining to parents its concerns about their children's special needs and strategies that may be used to meet their needs
- The Academy responding promptly to parental concerns about students special educational needs
- Parents responding promptly to the Academy's request for their involvement in meeting their children's special needs
- The Academy and parents having joint meetings with parents to set clear goals, discuss the support necessary, review progress and identify the responsibilities of the parent, the student and the school. It should provide an opportunity for the parent to share their concerns and, together with the teacher, agree their aspirations for the child.
- Academy inviting parents to a variety of support sessions to enable them to further support their child at home e.g.) reading at home, sleep routines, boundaries and expectations
- Academy inviting families to informal coffee afternoons

Particular care will be needed in the planning for and the supporting of students with EHC plans/SEND needs to return to the academy. In the spirit of coproduction, educational settings should contact parents and involve them in decisions about their child who has an EHC plan.

Covid-19 Parents should:

- Provide the school with sufficient and up-to-date information about their student's needs.
- Be involved in the development and review of their student's IEP/support plan.
- Inform the school about any increased risk to their child through periods of Covid-19 restriction so the school can plan and risk assess accordingly.

Arrangements for consulting with students

The views of the student will be included and taken into account throughout the graduated approach. This could be through involving the student in all or part of the review meeting, or gathering their views as part of the preparation for the meeting. Following the meeting the SENDCO will need to inform all the appropriate school staff of the outcomes and agreed targets, as well as updating the student's record as appropriate.

Student voice is collated through various meeting points and in various child centered techniques.

Covid-19 - Due to the unprecedented circumstances presented by coronavirus, section 42 of the Children and Families Act 2014 has been temporarily modified so that local authorities and health commissioning bodies must use their 'reasonable endeavours' to discharge the duty to secure or arrange the provision specified in a child or young person's EHC plan/SEND need. Local authorities and educational providers may therefore need to work together to consider for each student with an EHC plan what can reasonably be provided during this temporary period. The health and safety of staff is an additional key consideration during this period.

Covid-19 - Students will often be best placed to provide information about how their needs affect them. Students should be fully involved in discussions about their needs and contribute as much as possible to the development of their EHCPs/IEP/support plans. They are also expected to comply with their EHCPs/IEPs/support plans alongside the new rules and regulations of the Academy.

Assessing and reviewing student's progress towards outcomes

We will follow the graduated approach and the four-part cycle of **assess, plan, do, review**.

The class or subject teacher will work with the SENDCO to carry out a clear analysis of the child's needs. This will draw on:

- The teacher's assessment and experience of the student
- Their previous progress and attainment and behaviour
- Other teachers' assessments, where relevant
- The individual's development in comparison to their peers and national data
- The views and experience of parents
- The student's own views
- Advice from external support services, if relevant

The assessment will be reviewed regularly.

All teachers and support staff who work with the student will be made aware of their needs, the outcomes sought, the support provided, and any teaching strategies or approaches that are required via Individual Education Plans and Education Health Care documents. We will regularly review the effectiveness of the support and interventions and their impact on the child's progress.

Termly student progress meetings, transition matrices and intervention trackers assist this process.

Covid-19 - During a period of Covid-19 restriction, the assessing and reviewing of students with special needs may need to take place remotely through phone or video conference contact. Where on-site assessments are needed these should be carried out whilst maintaining social distancing.

The school's arrangements for assessing and reviewing the progress of students with special educational needs

Following identification and initial strategies of differentiation if progress is still of a concern, it will be necessary to:

- Discuss this with the student's parents or carers and collect relevant information
- The SENDCO to register the child's special educational need
- If necessary, the SENDCO/Assistant SENDCo, class teacher and parent /carer discuss what support can be given outside the classroom to help the student with their learning barrier. This might be something specific to the student in the form of an Individual Education Plan or as part of one of the support programmes operating in school, e.g. Literacy Intervention plus specific homework; Success at Arithmetic, TRT, SEMH sessions
- Progress is monitored regularly and review meetings are held at parent's evenings.
- A review meeting considers the progress made by the student, the effectiveness of any extra support received and an agreement on what needs to happen next.

Covid-19 - During periods of Covid-19 restriction, additional barriers may be faced by children with specific SEND needs. The placing of restrictions on access to school does not change the Trust's statutory duty to provide an equal access to education for children with SEND needs to that being provided for their peers. However, careful planning must take place to ensure that this takes place in a manner which protects the wellbeing of the student and members of staff. For these students it is important that the academies work closely with parents to formulate a package of support that either allows the student to directly access the academy or be provided with appropriate high quality remote learning opportunities.

Covid-19 - The Academy Principal will review plans for any student whose needs present a higher risk to themselves or staff during a period of Covid-19 restriction. This could be for a number of factors, for example because of risk of serious illness to the student because of medical needs or because of particular behavioural traits (for example spitting, deregulation leading to violence) presenting increased risks to staff. If the Academy Principal considers that, given the additional challenges presented in a Covid-19 situation, the student's needs can be met more safely through remote learning a package of this type will be developed between SENDCos and parents.

Supporting students moving between phases and preparing for adulthood

We will share information with the school, college, or other setting the student is moving to. We will agree with parents and students which information will be shared as part of this.

Transition from primary to secondary education follows a comprehensive secondary transition plan which includes:

- Exchange of achievement and predicted data
- SEND meetings and exchange of information
- Transition programme of visits and experiences (tailored in line with government advice for 2020 due to COVID-19)
- Students identified for the Bridging Project
- Additional SEND visits if necessary bespoke to individual needs
- Parents SEND Event- opportunity for parents of Y5/6 students to meet the SEND Staff.
- Transition support for students and families to return to academy following lock down from COVID-19 with a range of support including, ASD management techniques, emotional regulation support, family meetings, additional precision teaching to accelerate learning and individual support packages tailored through student/family consultation meetings
- The Assistant SENDCo/ SENDCo will attend reviews where necessary and requested by the primary school
- EHCP, IEP, Safeguarding and Medical information shared with MA by primary schools
- MLT discussion point

Transition from KS4 to KS5 provision involves the SEND team completing the student support plan to share data, information, review the IEPs and set targets in advance of the new school year. Access arrangement information sent to College/post 16 provision. Transition Annual review held for Y11 students.

Our approach to teaching students with SEND

Teachers are responsible and accountable for the progress and development of all the students in their class.

High quality first teaching is our initial step in responding to students who have SEND. This will be differentiated for individuals.

We will also provide the following:

- access to a broad and balanced curriculum that is differentiated to meet individual needs.
- additional intervention and support for SEND students from within the Academy and through external agency assessments and interventions.
- Access to tailored Step Up interventions which include precision teaching and pre teaching to ensure students achievement and self-confidence is raised.
- differentiation to meet the needs of all the students in their classroom using appropriate resources, including the allocation of the TA.
- high expectations for every student including challenging targets
- lessons that's are planned to address potential areas of difficulty and to ensure that there are no barriers to every student achieving.

Adaptations to the curriculum and learning environment

We make the following adaptations to ensure all students' needs are met:

- Differentiating our curriculum to ensure all students are able to access it
- Adapting our resources and staffing
- Using recommended aids, such as laptops, coloured overlays, visual timetables, larger font, etc.
- Differentiating our teaching, for example, giving longer processing times, pre-teaching of key vocabulary, reading instructions aloud, etc.
- An IEP (individual education plan) EHCSP (Education, Health and Care Support Plan) or Care Plan (Medical Needs) is created specifically for every individual student on the SEND register, to inform teachers and associate professionals involved what their needs are and what strategies to use to support.

Covid-19 – During a period of Covid-19 restriction, the academy will use its best endeavours to adapt the curriculum and learning environment as appropriate to meet the needs of students with special needs. However, this will be planned and carried out within the context of the regulations required for the stage of Covid-19 restriction (e.g. Social distancing measures/removal of soft materials).

Learning Environment

The Academy will make reasonable adjustments to meet a range of special educational needs within its mainstream setting by adapting its equipment and facilities, as necessary.

The majority of the school building has no impediments internally to the movement of physically disabled students. There are disabled toilet facilities in school and all doors are wide enough for easy wheelchair access.

Covid-19 - If a risk assessment determines that a child or young person's needs continue to be more safely met at home, local authorities, educational settings and parents should consider whether moving either equipment or services into a student's home would enable them to be better supported there.

Please see the Accessibility Plan on the Maltby Academy's website for further information: [Accessibility Plan](#)

Additional support for learning

Associate Professional Support

In addition to quality first teaching and a differentiated approach, students with SEND may also require extra support for their learning needs from an AP in the classroom. The general objectives of in class support are:

- AP is actively and pro-actively involved in the lesson
- AP adjusts activities according to student response, to ensure differentiation and challenge
- AP monitors student response to learning activities and feeds back to teacher
- AP shows specific subject knowledge through use of questioning
- AP promotes positive climate to learning and establishes positive working relationships
- AP promotes and encourages independent learning
- AP has a good working knowledge of SEND learning barriers and targets support appropriately
- There will also be circumstances when individual or small groups of students will need to be identified to access specific interventions.

Covid-19 – During a period of Covid-19 restriction, the academy will use its best endeavours to provide the additional support as appropriate to meet the needs of students with special needs. However, this will be planned and carried out within the context of the regulations required for the stage of Covid-19 restriction (e.g. Social distancing measures/removal of soft materials).

Expertise and training of staff

The SENDCo (Natalie Crofts) is working towards the National Award for SEND Co-ordination. She has wide ranging experience of liaising with external agencies to leverage support and resource to maximise provision for SEND pupils. Maltby Learning Trust provide a network of support, led by an experienced SENCO, to enable the dissemination of best practice and expertise in all areas of SEND provision. Natalie is supported by two experienced Assistant SENDCos.

In Service Training

In-service training has been developed to encourage all staff (teaching and nonteaching) to develop their understanding of special educational needs.

ALL staff are encouraged to:

- Develop their understanding of special needs and the educational, social and personal implications for a student.
- Develop their teaching expertise in providing for students with learning barriers.
- Develop a secure knowledge of differentiation to provide high quality teaching and learning for all students.
- Keep up with any new initiatives, procedures and legislation in the area of SEND.

As the Academy continues to develop the use of Associate Professionals , we are also aware of the need for them to benefit from the in-service training and for teaching staff to be trained in the best ways of utilising associate professionals as an important resource to the Academy. A programme of AP training is in place across the academic year.

- All teachers and APs who are required to meet specific need will receive specific training through LA or external courses as appropriate.
- Generic SEND training is planned into the whole school CPD programme and delivered through staff meetings and INSET days by SENDCO or external providers – this includes Governor training. All APs will receive 12 hours specific SEND training through the academic year.
- SENDCO has completed the mandatory PGCertSEND award and holds the Learners First SLE qualification for SEND
- SENDCO/Assistant SENDCo leads and delivers training for the Maltby Learning Community SEND group and Learners First
- SENDCO is supporting the professional development of new SENDCOs within the trust.
- All SEND and Medical Team staff have completed a suite of Educare Training during spring and summer term 2020 in order to provide effective support to students.

Covid-19 – Some students with particular vulnerabilities may be unable to attend school during periods of Covid-19 restriction. Staff will be expected to provide meaningful learning opportunities remotely for these students.

Covid-19 – During times of Covid-19 restriction further measures around hygiene and infection control need to be implemented and stringently applied. Please see the revised Intimate Care Policy or First Aid Policy for details.

Evaluating the effectiveness of SEN provision

We evaluate the effectiveness of provision for pupils with SEN by:

- Reviewing students' individual progress towards their goals each term
- Reviewing the impact of interventions termly or earlier where appropriate
- Using student questionnaires
- Monitoring by the SENDCO
- Using provision maps to measure progress
- Holding annual reviews for students with Educational Health Care Plans.
- Ensuring that provision made for students with SEND is accurately recorded and kept up to date on the SEND Support Log. This will form part of regular discussions with parents about the child's progress, expected outcomes from the support and planned next steps. This should ensure that they have accurate information to evidence the SEND support that has been provided over the student's time in the Academy, as well as its impact.
- Recording information on the SEND Support Log enables the SENDCO/Assistant SENDCO to maintain an overview of the collective programmes of individual students and provides a basis for monitoring the levels of intervention and assessing their impact on progress.
- The SENDCO/Assistant SENDCO will track and monitor SEND students' progress and data using the SIMS electronic data system, Learning Cycle Data, teacher assessments which allows for a number of reports to be created over time.
- The SEND department along with Senior Leaders and the Principal review the SEND provision through QA processes, Learning walks, book looks and observations.
- MLT Whole Academy SEND Review
- NASEN Whole School SEND Review

Enabling students with SEND to engage in activities available to those in the school who do not have SEND

- All of our extra-curricular activities and school visits are available to all our students, including our before-and after-school clubs.
- All students are encouraged to go on our residential trip(s)
- All students are encouraged to take part in sports day/school plays/special workshops, etc.
- No student is ever excluded from taking part in these activities because of their SEN or disability.

Covid-19 – During a period of Covid-19 restriction, the academy obligations under the Equality Act (2010) do not change. However, all activities will be subject to further scrutiny and staff and leaders will need to seek assurance that they can be carried out whilst managing any risk to the student with a SEND need or staff prior to it being approved. If an Academy Principal decides, in consultation with parents and SENDCOs that a student's needs cannot be safely met in school a remote learning package with appropriate support will be developed.

Support for improving emotional and social development

We provide support for students to improve their emotional and social development in the following ways:

- Students with SEND are encouraged to be part of all aspects of the school day
- Students with SEND are also encouraged to be part of SEMH Support offered in order to promote teamwork/building friendships etc.
- The Vulnerable Learners Network meeting is held every week ensure a graduated approach is in place for all students including those who are vulnerable and/or have SEMH needs. The VLN triage students after referrals are submitted by the pastoral team. This allows us to track and monitor provision.
- Students who need Wave 3/4 provision to help meet their emotional needs have access to the Bridge provisions- This is a setting providing 1:1 and small group learning, incorporate a SEAL approach to learning and help children to self-regulate, identify with emotions and make positive choices. There are also specially trained staff to provide SEMH therapies for individuals and small groups with regulation, social stories and anger management amongst other support.
- The Academy has MAST counseling service on site that can be accessed through VLN referral
- Pastoral support: The school offers a graduated support system to meet the pastoral needs of the students including day to day support and runs personalised pastoral programmes.

Covid-19 – the academy will work with the Trust, local authority and health partners to ensure that services for additional support and early help, for example around anxiety, mental health, behaviour, social care, or changes to mobility will be available as far as possible. The academy is mindful that these considerations could apply to students who they did not previously affect.

The SENCO will ensure that

- **Covid-19** – Ensure that a detailed risk assessment and planning process has been undertaken and that this includes provision for meeting the needs of SEND students.
- **Covid-19** – Ensure that key staff have reviewed the EHCPs/IEPs/support plans taking into account revised policy and guidance and seeking specialist advice where needed prior to the student's readmission to the academy.
- **Covid-19** – Work to identify students who have particular vulnerabilities. Consult with the Principal, parents and professionals in revising IEPs/support plans and producing risk assessments prior to the student's readmission to the academy.
- **Covid-19** – Ensure that any additional training required is accessed (for example, in the safe use of PPE) prior to a student being readmitted to the academy.

Working with other agencies

Covid-19 – At times of Covid-19 restriction, it is particularly important that all members of the school community work collectively to ensure the wellbeing of our most vulnerable students. This can both be through ensuring access to learning and through acting as a critical partner in ensuring risks to all stakeholders are carefully controlled.

Covid-19 – Specialist services will be expected to provide specialist support in formulating risk assessments and planning to meet the needs of children with SEND needs during times of Covid-19 restriction.

The Assistant SENDCo/SENDCO will make a referral around specific learning difficulties for a student to one of these services, with parental permission. The service assesses need and produces a report which is shared with school and parents.. After discussing the report with the parent, teacher and SENDCO a graduated approach to support will be implemented if necessary with measurable outcomes.

The Governing Body

Regular reports are made to the Governing Body about the progress of students with Special Educational Needs and Disability. A report is made to parents in the Governors Annual Report to Parents (School Profile). A member of the Governing Body, Alex Steadman, is identified as having specific responsibilities for Special Needs and Disability and works closely with the SEND team.

Covid-19 – The Trust Board/Academy LGB will ensure that measures implemented to ensure the safety of students with SEND alongside the staff meeting their needs during times of Covid-19 outbreak are rigorous and sufficient. This could be, for example, ensuring that academies have adequate supplies of PPE, ensuring policies and protocols include reference to Covid-19 and are robustly implemented and that adequate risk assessment has taken place on a whole trust/individual academy level to safely meet the needs of students with SEND.

Complaints about SEND provision

The school encourages parents to voice any concerns that arise. We aim to solve issues swiftly and in person, with the aim of reaching a mutual agreement and understanding.

A parent's first point of contact should be the subject teacher. Teaching staff are always happy to discuss student progress and attainment at any given point in the year. Parents can also contact the school SENDCO who would be happy to answer any questions or concerns.

Parents who wish to make a complaint regarding SEND provision are strongly encouraged to speak to the SENDCO in the first instance. If the issue cannot be resolved at this level or the complaint is about the Principal the parent would be directed to the school's complaints procedure.
