Week 34	Week 35	Week 36	Week 37	Week 38	Week 39	<b>Curriculum Intent:</b> To be numerate, confidently and effectively using mathematics to meet the everyday demands of life Enabling pupils to be able to make informed decisions in their everyday lives and contribute to building a strong economy, allowing the UK to compete globally Share a love and satisfaction of maths. It is satisfying to finish a maths problem and find a new way in which they can use their mathematical toolkit We wish it to be like a work of art – they spend time learning to draw, at first they can't, then they get more confident and before long they're drawing it on every surface they find Increasing the ability of our pupils in maths; pupils who are competent in Maths have greater options in life, whether through further study or in their careers
